### **DETAILED ACTION**

1. The amendment filed April 2, 2004 is acknowledged and has been entered. Claims 1-6 and 9-11 have been canceled. Claim 7 has been amended.
2. Claims 7, 8, and 12-19 are pending in the application. Claims 12-19 have been withdrawn from further consideration pursuant to 37 CFR § 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicants timely traversed the restriction (election) requirement in Paper No. 9.
3. Claims 7 and 8 are currently under prosecution.

### ***Grounds of Objection and Rejection Withdrawn***

4. Unless specifically reiterated below, Applicant's amendment filed April 2, 2004 has obviated the grounds of objection and rejection set forth in the previous Office action mailed October 2, 2003.

### ***Claim Objections***

5. Claim 8 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Claim Rejections - 35 USC § 112***

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:  

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
7. Claim 7 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 7 recites "the polypeptide of protein antigen sequence component of the fusion protein". There is no antecedent basis for this limitation in the claim. Amending claim 7 to recite "the polypeptide **or** protein antigen sequence component of the fusion protein" (emboldened for emphasis), as was probably intended, can obviate this issue.

### ***Conclusion***

8. No claims are allowed.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
